*Personally Identifiable Information

Data Access policy for the Applicants:

1. All applicants who get shortlisted in first round of selection criteria shall get the limited access to the data sets for prototype development.
2. The data shall be provided in request-response basis on an API based integration. No bulk data shall be available over the API and the applicants will have to arrange/provide the request parameters for fetching the response information from live systems through ULIP.
3. The access to the data shall be limited to the requirement specified in the document submitted during the ideation stage. **A Non-disclosure Agreement (NDA)** shall be signed by the selected applicants with ULIP prior getting access to the specified data.

4. **The personally identifiable information will not be shared with the applicants.** NSDL has developed separate APIs to use PII data for authentication purpose only. Applicants can use these APIs to check if the respective ID is validate or not.
5. The data received from the ULIP system shall strictly be used for system development. No data shall be published or reproduced in any of the forum or media or publications other than this hackathon. Any breach in data security and confidentiality shall be treated as breach of the terms and conditions of the hackathon and appropriate action shall be taken as per the law of the land.
6. The total number of unique requests per day shall be limited to 100 and each applicant shall get permission for maximum 500 unique requests throughout the hackathon period.
7. ULIP and hackathon governing body shall have the sole right to grant or restrict or revoke or limit the data access for the applicants.
